SOCIAL MEDIA & FUNDRAISING TIPS

Post a photo/video everyday! Share how many days you've been "trapped" in your shirt (without washing!) & how many more days you have to go if you don't reach your goal.

Don't forget to share your fundraising link on every post/email/message!

Reach out personally to friends and family, you don't have to wait for them to find your posts! Phone calls, messages and emails are very effective.

Thank your friends and family for their support and let them know how grateful you are!
